

RoHS and REACH Compliance Statement – March 6, 2020

REACH regulation (EC) No 1907/2006 and RoHS Directive 2011/65/EU.

TGS (Tunatek Otomotiv Ltd.) designs and manufactures Gas Springs, both compression and tension, and dampers. To the best of our knowledge, all TGS products currently in production are in compliance with the requirements of the Regulations and/or Directives as indicated above.

TGS manufactured gas springs do not contain the substances listed in Annex II of Directive 2011/65/EU at concentrations exceeding the Maximum Concentration Values (MCV). Additionally, the gas springs manufactured by TGS are not considered to be EEE products as defined in the Directive as they are not 'dependant on electrical current or electromagnetic fields for at least one intended function'.

TGS manufactured gas springs comply with the related requirements of European Union Regulation (EC) 1907/2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) as under the structure of the REACH regulation, TGS is a manufacturer of articles and do not involve the "intentional release of substances". Accordingly, there is no registration or pre-registration or authorisation requirement for the products we manufacture. Additionally TGS do not use chemicals in quantities of 1 tonne or more per year.

Disclaimer:

This RoHS and REACH compliance statement is, to the best of TGS's knowledge, accurate as of the date indicated on this page. As some of the information is based upon data provided from sources outside the Company, TGS makes no representation or warranty as to the accuracy of such information.

TGS continues to work toward obtaining valid and certifiable third-party information, but has not necessarily conducted analytical or chemical analyses on all materials or purchased components. In no event shall TGS's liability arising out of such information exceed the purchase price of the TGS item(s) sold to the Customer.
